

Welcome to the Office of Child and Nutrition Services!

Our mission is to serve healthy meals with a smile to help students achieve academic and lifelong success.

Did you know that we serve healthy and nutritious breakfast to all students at no cost? Breakfast is the most important meal of the day. In general, kids and teens who eat breakfast have more energy, do better in school, and eat healthier throughout the day. Make sure to fuel up!

Visit the other links on our page for menus, nutrition information and other valuable information.
